To Whom This Concerns,

We have been working with Jack Arnold for the past 5 years. We are so thankful to have been introduced to Jack. He has helped us immensely in disposition of aircraft, acquisition of aircraft and overall general aviation advice.

Over the years, Jack has become our "go to" guy for all of our aircraft related activities. He has many qualities that are rare to find in one individual these days. Firstly, he is extremely smart and well versed in all areas of the aircraft industry and is known and respected in aviation circles. Secondly, he is a person of very high integrity in combination with the highest of moral, ethical and professional standards. Moreover, he has a great work ethic and seems to thoroughly enjoy digging into projects given to him. Jack's communication skills are top notch. That in combination with his always rapid response time has been helpful to us especially at times when we have been in the middle of sensitive negotiations. We never had to worry about hearing back from Jack. His timely responses were always well thought out and on target. On top of all of these accolades, I will add that Jack is a super nice and good human being and lovely to be around.

I must finish by saying that Jack is one of those rare individuals that we have been fortunate to come across in our life. He is always a pleasure to work with and we feel lucky to have met him.

All Best,
